Berlin, Germany | +49 1522 5759411 | owusukwaku64@gmail.com | [linkedin.com/in/kwakuowusu-oware](https://www.linkedin.com/in/kwakuowusu-oware)

IT Professional bridging Data Science & Systems Administration to solve real-world problems. Skilled in AI training, code review, and prompt engineering for LLMs.

SKILLS AND COMPETENCIES

- **Data Science & Business Analytics:**

Python, SQL, Machine Learning Libraries, Power BI, seaborn, matplotlib. Strong ability to translate data insights into strategic business decisions and actionable recommendations.

- **System & Database Administration:**

Oracle, MySQL, Linux, Server Management, Performance Optimization. Experienced in optimizing enterprise systems to support organizational goals and business continuity.

- **Cybersecurity & Risk Management:**

Access Control, Incident Response, Policy Design, Security Audits. Align cybersecurity policies with business risks and regulatory standards to reduce exposure.

- **Communication & Business Engagement:**

Excellent communicator with a track record of collaborating across technical and non-technical teams. Experience delivering data-driven insights to management, training staff, and leading cross-functional initiatives.

- **Tools & Automation:**

Git, VS Code, scripting (Python/SQL), dashboard design. Adept at improving operational workflows and supporting digital transformation.

PROFESSIONAL EXPERIENCE

HTW Berlin – Hochschule für Technik und Wirtschaft Berlin

March 2025 – Present

AI Research Assistant

- Collaborating on the development and training of a local AI model to support the Student Services team with accurate, context-specific responses to international student queries.
- Leading the system integration of natural language processing (NLP) tools with internal student support data sources to ensure accurate and context-specific responses.
- Supporting the data pipeline setup, including the preprocessing of documents, clustering of student queries, and implementation of feedback loops to improve model accuracy.
- Ensuring all AI-generated responses align with HTW's communication standards and privacy policies, particularly in managing sensitive student information.
- Conducting testing and evaluation of model performance in real-time scenarios, and presenting weekly updates to the university's IT and student services teams.

Invisible Technologies.

November 2023 – November 2024

Advanced AI Data Trainer (Part Time)

- Reviewed and scored AI-generated code to evaluate correctness, logic, and adherence to coding standards.
- Led training sessions for AI model development, emphasizing efficient coding practices and in-depth understanding of JavaScript and Python.
- Collaborated with a team of software developers and data scientists to enhance AI training methodologies, contributing to significant improvements in model accuracy and performance.
- Led data-heavy AI training projects using secure handling and best-practice protocols.

Ghana Union Assurance

May 2020 – November 2024

IT Department

- Performed system administration tasks, including server management, performance monitoring, troubleshooting, and security administration.
- Enforced database security measures, including user access controls, authentication, and encryption, to protect sensitive data.
- Led data migration and integration projects, ensuring smooth transfer and compatibility between different database systems.
- Automated routine tasks using SQL and Python to streamline administrative processes and reduce manual workload.
- Developed IT and cybersecurity policies to govern IT systems, ensuring compliance with industry standards and regulatory requirements.
- Actively participated in IT audits, providing necessary documentation, evidence, and explanations to auditors.
- Conducted training and awareness programs to educate employees on IT and cybersecurity best practices, fostering a culture of security awareness throughout the organization.

Notable Achievements

- Project Lead – Directed the development of GUA's mobile app, boosting customer engagement.
- Email System Migration – Oversaw seamless migration with minimal service disruption.
- Leave Management System – Designed and deployed a digital tool reducing HR paperwork.
- Acting IT Head – Maintained departmental operations during leadership transition.
- Cybersecurity Framework – Authored and enforced company-wide cybersecurity policies.

EDUCATION

HTW Berlin - Hochschule für Technik und Wirtschaft Berlin
Master of Science in Project Management and Data Analytics

October 2024 – Present

University of Ghana
Bachelor of Science in Information Technology (IT)

August 2014- May 2018

CERTIFICATIONS & TRAINING

Diploma, Ghana Insurance College

Jan 2022

Cybersecurity Strategy Forum – Innovare/Joy Business

Aug 2021
